

MAY OPEN FIRE  
ON GUNBOATSAdmiral Mayo Intends Keeping  
Port of Tampico Open.

ACTUAL WARFARE MAY RESULT

General Huerta Orders His Gunboats  
to Blockade Tampico and Seize Car-  
go of Ammunition En Route There  
for Rebels Aboard the Steamer  
Antilla.Washington, June 8.—Another crisis  
in the Mexican difficulty faces the  
Washington government, a situation  
fraught with perils for mediation and  
with possibilities that might precipi-  
tate actual warfare between the United  
States and Mexico.General Huerta has brought about  
the new crisis by ordering his gun-  
boats to blockade the port of Tampico  
and to seize a cargo of ammunition en  
route there for the Mexican Constitu-  
tionalists aboard the steamer Antilla  
from New York, flying the Cuban flag.Huerta has notified the powers of  
the intent to blockade the port and  
that he proposes to seize the cargo  
consigned to the belligerents against  
his sovereignty as contraband of war.  
The purpose of the United States  
to suppress the attempt to blockade  
and prevent interference with the An-  
tilla was indicated when Secretary  
Daniels issued an official statement  
announcing that, while no new orders  
had been given Rear Admiral Badger,  
there had been no change in the pol-  
icy of the government in reference to  
its desire that the port of Tampico  
shall be open to all commerce. The  
statement follows:

## No New Orders Issued.

"The navy department has issued no  
new orders to Admiral Badger since  
the Mexican gunboats were reported to  
be leaving Puerto Mexico. The  
department has at no time contem-  
plated furnishing a convoy to the An-  
tilla or any other ship, nor have any  
orders to that effect been issued."No word whatever has been re-  
ceived as to whether or not the war-  
ships of other nations have been noti-  
fied of the blockade at Tampico or  
what their attitude would be toward  
such a blockade. There has been no  
change in the policy of the govern-  
ment in reference to its desire that  
the port of Tampico shall be open to  
all commerce."As to whether "all commerce" in  
this instance includes contraband of  
war no official of the government will  
discuss. So far as is known the only  
orders relating to Tampico that have  
been issued went to Admiral Badger  
on May 18 in the form of a message  
informing him that, while it was not  
believed that Huerta gunboats would  
return to Tampico, it was deemed ad-  
visable that the commanders of Amer-  
ican naval vessels understand that the  
government desired that there be no  
interference with commerce at that  
port.That an attempt to carry out the  
Huerta blockade decree will be made  
was indicated by Rear Admiral Badger  
in a report to the navy depart-  
ment, announcing that the Mexican  
gunboats Zaragosa and Bravo, which  
left Puerto Mexico, had passed Vera  
Cruz and were steaming toward Tam-  
pico.

## American Ships Following.

The American cruiser Tacoma and  
gunboat Sacramento are following the  
Huerta ships. What the American  
warships will do when the commander  
of Huerta's ships attempt to seize the  
Antilla, when she arrives at Tampico  
Wednesday, no official in Washington  
would say.When Admiral Badger's report  
reached Washington it immediately  
was communicated to President Wil-  
son, Secretary of the Navy Daniels  
and Secretary of State Bryan. Sec-  
retary Daniels would make no state-  
ment. Neither would Secretary Bryan,  
nor was there official information ob-  
tainable from the White House.Three possibilities were discussed  
in official quarters as likely to arise  
in view of the problem that Huerta's  
decisive action has presented. Should  
the American government direct that  
the order to Admiral Badger be con-  
strued as to include delivery of con-  
traband of war Admiral Mayo at  
Tampico would be compelled to open  
fire on Huerta's gunboats if neces-  
sary to prevent interference with the  
Antilla.If this were considered an overt  
act of war and a violation of the  
agreement to cease hostilities it prob-  
ably automatically would end the  
peace conference at Niagara Falls.In the opinion of many who are in  
close touch with the Washington ad-  
ministration this would mean the be-  
ginning of actual hostilities against  
the Huerta government and signal the  
advance of an American army from  
Vera Cruz toward Mexico City.

## SIXTY INJURED AT FAIR

Gas in Balloon, Blown Against a Tree,  
Explodes.Sezanne, France, June 8.—Sixty per-  
sons were injured, several of them  
probably mortally, by the explosion of  
a balloon at the annual fair here. The  
balloon had just started to rise when  
a gust of wind blew it against a tree,  
tearing the envelope. The escaping  
gas exploded, injuring bystanders and  
wrecking the fair booths.WHITMAN PROBES  
ILLEGAL VOTINGNew York District Attorney An-  
nounces Results.

FINDS NUMBER OF FRAUDS

In Charles W. Murphy's District  
Names of Four Dead Men Were Re-  
gistered as Having Cast Votes—In  
Another District Names of Fifteen  
Men Were Voted as Residents of  
Bellevue Hospital.New York, June 8.—District At-  
torney Whitman's investigation of il-  
legal voting at the special election April  
7, Mr. Whitman announced, has dis-  
closed that in the Twelfth assembly  
district, in which Charles W. Murphy,  
leader of Tammany Hall, makes his  
home, the names of four dead men  
were registered as having cast votes  
in favor of the holding of a constitu-  
tional convention next year.The investigation also has discov-  
ered that in the Fourteenth assembly  
district the names of fifteen men  
were voted as residents of Bellevue  
hospital. Detectives discovered that  
not one was known at the hospital.  
The inquiry, according to the dis-  
trict attorney's statement, has shown  
that a large number of men iden-  
tified with Tammany Hall, who are  
now under indictment for irregular-  
ities alleged to have been committed  
at the special election, have been vot-  
ing on the names of illegal voters at  
all elections for several years.To date eighty-eight indictments  
against election officials for frauds  
committed at the special election  
have been found, the district attor-  
ney said. Twenty-three election in-  
spectors, poll clerks and ballot  
clerks have been arrested and are  
under bail of \$2,500 each. Two of the  
indicted election officials have fled  
the jurisdiction. Out of 3,153 votes  
cast—3,036 for and 118 against the  
holding of the convention—816 have  
been found to be fraudulent.

## WILL GATHER AT NEWPORT

Suffragists to Meet With Mrs. Bel-  
mont July 3.Washington, June 8.—July 3 has  
been agreed upon as the date and  
Mrs. O. H. P. Belmont's Newport  
home, Marblehouse, the place for a  
get together meeting of the woman  
suffrage leaders of the United States  
in an effort to concentrate support  
for a suffrage measure in congress.Two bills, one by Senator Shef-  
roth and the other by Senator Bris-  
trow, are now before congress. The  
suffrage leaders are somewhat divided  
as to which measure is better, but  
they hope to settle all difficulties at  
the Newport meeting.Miss Doris Stevens, executive se-  
cretary of the congressional union,  
will go to Newport soon and open  
headquarters to conduct an educa-  
tional campaign. Miss Mary Boyle  
Brennan will undertake a similar  
work at Atlantic City. Workers also  
will be sent to practically all the  
other large summer resorts.

## STRIKING CADDIES IN RIOT

Wield Golf Clubs on Organization  
Members.Bronxville, N. Y., June 8.—One  
hundred caddies at the Sivanoy  
Country club here struck for higher  
pay. Resisting attempts of members  
to eject them from the club grounds  
for interfering with the work of the  
new boys who were called the cad-  
dies wielded golf clubs freely, sev-  
eral members of the club sustaining  
cuts and bruises in the encounter.  
Deputies who had been summoned  
to assist the club arrived after the  
strikers had disappeared.

## PREPARING FOR CONVENTION

Official Board of Federation of Wom-  
en's Clubs Meets.Chicago, June 8.—The official board  
of the General Federation of Wom-  
en's clubs met here, prepared and ap-  
proved plans for the biennial con-  
vention of the federation which opens  
June 9. Fifteen thousand women  
are expected to take part in the ses-  
sions of the convention and elaborate  
arrangements have been made for  
their safety and comfort. The at-  
tempt to force through an endorse-  
ment of the suffrage movement by  
the federation, it is said, probably  
will be the storm center of the con-  
vention.

## Ground to Death Under Train.

Winona, Minn., June 8.—William  
Hutchinson, forty-five years old, a  
resident of Plainville, sat down upon  
the Northwestern track a mile north  
of Eyota. The excessive heat had  
fatigued the trespasser, who missed  
the train and was walking home. He  
fell asleep and a passenger train killed  
him. A widow and family survive.

## ROOSEVELT LEAVES PARIS

Colonel Continues on His Way to  
Madrid.Paris, June 8.—Colonel Theodore  
Roosevelt continued his journey to  
Madrid, where Thursday he will at-  
tend the wedding of his son Kermit  
to Miss Belle Willard, daughter of  
the American ambassador to Spain.  
In Colonel Roosevelt's party were  
Mrs. Nicholas Longworth, Miss Kath-  
erine Page, daughter of Walter Hines  
Page, United States ambassador to  
Great Britain, who is to be a brides-  
maid, and Oscar S. Straus, former  
ambassador to Turkey.INJURES SEVEN AND  
DOES MUCH DAMAGEViolent Storm Sweeps Portion  
of South Dakota.Canistota, S. D., June 8.—A tornado  
injured seven and did much damage  
to farm property in this vicinity. It  
formed near Fred Henthorn's farm,  
traveling almost due north, and swept  
everything in its path for about  
eight miles.Barns and outbuildings on the Hen-  
thorn and other farms were demol-  
ished.Mr. and Mrs. Harms and their two  
sons, Edward and Herman, were in  
their house when the tornado struck.  
After it passed Edward was found  
in the cellar and Herman and his  
father in the ruins, all three being  
unconscious.Mrs. Harms suffered three broken  
ribs. She was the only member of  
the family who was able to go to the  
neighbors for aid. The condition of  
Mr. Harms is serious.

## FLETCHER PRAISES HEROES

Admiral Describes the Seizure of  
Vera Cruz.Washington, June 8.—"Resource-  
fulness, courage and devotion to duty  
of all officers of the landing force  
was everything that could be desired  
and reflected the highest credit upon  
our naval service," declared Rear Ad-  
miral Fletcher in a report accompany-  
ing his story of the seizure of Vera  
Cruz, made public by the navy de-  
partment.Narratives of the bravery of enlist-  
ed men of the navy and marine corps  
during the fighting at Vera Cruz on  
April 21 and 22 also were included in  
Admiral Fletcher's report.Numerous officers of the navy and  
the marine corps who distinguished  
themselves for cool indifference to  
danger and skill in handling their  
men were named for special honor in  
Admiral Fletcher's report.

## TWO FARMERS KILLED

IN CLOSE RANGE DUEL.

Poplarville, Miss., June 8.—  
In a duel fought at close range  
here John Lee and Boyd Lad-  
ner, farmers, were killed. Lad-  
ner shot Lee five times, but  
meanwhile Lee cut Ladner's  
throat with a knife. The trag-  
edy was said to have been  
caused by the renewal of a  
family feud.

## THREE KILLED BY LIGHTNING

Much Property Damage Also Done  
by Bolts.Utica, N. Y., June 8.—Three per-  
sons were killed by lightning and  
considerable property damage was  
done during a severe storm which  
visited Southern and Central New  
York.Near Binghamton a man was killed  
and a woman was injured seriously  
when lightning struck a tree under  
which they sought shelter from the  
rain. At Canastota two brothers  
were killed by lightning.FEELING PULSE OF  
PUBLIC OPINIONCongressman Trying to Decide  
Who is the Most Popular Man.

WILSON, T. R. OR BRYAN.

With Direct Primaries the Man Most  
Talked About is the Man Most Like-  
ly to Win—Langley, Builder of First  
Aeroplane, Vindicated at Last—Died  
of Grief Caused by Failure.

By ARTHUR W. DUNN.

Washington, June 8.—[Special].—  
When former Senator Jonathan  
Bourne of Oregon was in active polit-  
ical life he maintained what he called  
a mental barometer regarding public  
men. It was his fad to speculate upon  
what men were most in the public eye,  
were talked about, and therefore were  
likely to come to the front in presi-  
dential campaigns.There has been a revival of that idea  
caused by the discussion as to whether  
people were talking more about Col-  
onel Roosevelt than President Wilson.  
A man who has been trying to keep  
up with Bourne's political barometer  
thinks that Roosevelt seems to be  
ahead of Wilson just now and that  
Bryan is next to Wilson among the  
public men of the day.It sometimes happens that a man  
who is less known than his opponents  
reaches the goal of the presidency.  
That was more likely to happen in the  
days when conventions were manipu-  
lated and compromises affected after  
many fruitless ballots and none of the  
leaders could win. In these days of  
primaries a man in the public eye  
stands a good chance of being nomi-  
nated.Langley Vindicated.  
The many friends of the late Pro-  
fessor S. P. Langley are much grati-  
fied to have his name vindicated by  
having his old flying machine demon-  
strate that it would really fly. Langley  
was a great scientist in his way, and  
it was by his work that aerial naviga-  
tion was made possible by heavier  
than air machines. I wrote a story  
about Langley and his machine a few  
years ago and pointed out that the ma-  
chine could be taken out of the Smith-  
sonian institution where it reposed and  
would carry a man the same as other  
flying machines do.It was just an unfortunate accident,  
a misplaced rope, which caused the  
failure of the machine to fly on its  
trial. Langley could get no more mon-  
ey to demonstrate his theories, and the  
machine was hung up while his ideas  
were successfully used by others.

## "It's Their Deal."

Much time is devoted to discussion  
of the use of automobiles, motorboats  
and other vehicles that are paid for out  
of government funds and are supposed  
to be used for the public service. The  
general complaint is that they are used  
by the officials for their own pleasure.  
There is nothing the government can  
do about it as long as it makes the  
appropriation. "It's their deal," was  
the clinching remark that one man  
made, who said that everybody would  
do the same thing if they were in the  
same place, which boiled down means  
that human nature is pretty much  
alike everywhere.

## What is a Jim Swinger?

Frequently I hear a southern man  
describe a fellow southerner and re-  
mark that he was wearing a Jim  
Swinger coat. Investigation proved  
that the Jim Swinger is the ordinary  
frock coat much affected by southern  
statesmen, but whether it was origi-  
nally worn by Jim Swinger and who  
Jim Swinger was remains as much of a  
mystery as the man who struck Billy  
Patterson.

## Bob Henry Has a River.

Bob Henry of Texas during the off  
hours when he is not dodging suffra-  
gists talks about a river which is equal  
to that of Colonel Roosevelt's river.  
"My river," said Henry, "rises in New  
Mexico and flows through Texas, for  
more than 1,000 miles, then it passes  
on through the gulf of Mexico to the  
Caribbean sea on southward across the  
equator into the Atlantic ocean and up  
the Amazon until it reaches Roosevelt's  
river. We call it the Brazos down in  
Texas."

## Reply to Donovan.

Jerry Donovan of Connecticut used  
his "scattering gun," as sportsmen  
would say, in firing a shot in the house  
the other day, and a few stray shots  
struck Gardner of Massachusetts, Mc-  
Coy of New Jersey and Mann of Illi-  
nois. The latter retorted:  
"We ought to be glad that the gen-  
tleman from Connecticut is awake.  
When I went to the ball game yester-  
day he was asleep." But it is not of-  
ten that the Connecticut man is caught  
napping.

## Raker's Many Bills.

It is an off day when Congressman  
Raker of California does not introduce  
a bill on some subject. He has a rec-  
ord for introducing more bills than  
any other man in the house, except  
pension bills, for there are men who  
introduce those by the hundred. Rak-  
er's proposed legislation relates large-  
ly to the public lands.

## Another Civil War Man.

Alabama has added a soldier of the  
civil war to the senate roll. Senator

until the 4th of March next, saw hard  
service during the war. He succeeds  
another Confederate soldier, the late  
Senator Johnston.

garia in New York city, was advised  
by cablegram from Sofia, Bulgaria,  
that it is the intention of Queen  
Eleanora to visit the United States  
next October. The queen planned to  
come to the United States last  
spring, but decided to defer her visit.DISTURB WORSHIP IN  
CATHOLIC CHURCHESLondon Militants Shock Mem-  
bers of Congregation.London, June 8.—Suffragettes for  
the first time invaded Catholic  
churches and created scenes by at-  
tempting to harangue the congrega-  
tions. Worship was disturbed in both  
Westminster cathedral and the Church  
of the Oratory, Brompton.Father Bernard Vaughn had just  
taken his place in the pulpit in West-  
minster cathedral when a woman  
rushed up the steps into another pul-  
pit and waving her arms toward the  
altar shrieked:"In the presence of the Blessed Sacra-  
ment I protest against the forcible  
feeding of women."She was well dressed and apparent-  
ly a woman of refinement. Members  
of the congregation, shocked by the wo-  
man's action, rose from their seats.  
Murmurs of protest at the sacrilege  
ran through the edifice. One of the  
women worshippers tried to persuade  
the suffragette to descend from the  
pulpit, but she remained there waving  
her arms and yelling incoherently un-  
til the vergers forcibly pulled her  
down the steps and led her to the  
doors of the cathedral. There she was  
turned over to the police. She de-  
clined to give her name.

## MAYO AWAITING BLOCKADE

Rear Admiral Shifts Flag to Battle-

Badger cabled the navy department  
that Rear Admiral Mayo had shifted  
his flag to the battleship Minne-  
sota, just outside the Panuco river at  
Tampico. It is assumed that the ad-  
miral desired to be on hand for the  
arrival of the Huerta gunboats, due  
at the mouth of the river to attempt  
a blockade.The cruiser San Francisco has left  
for Tampico and the Arctura for

## AUTO STOPS ON CROSSING

Four Persons Killed When Train Hits  
Machine.Linneus, Mo., June 8.—Four persons  
were killed and two injured when a  
touring car containing six persons  
was struck by a Chicago, Burlington  
and Quincy passenger train near here.  
The dead are Elbert Thomas, wife  
and daughter of Wheeling, Mo., and  
Mrs. Jesse Ray of Greencastle, Mo.  
Jesse Ray and daughter were in-  
jured seriously.  
The car in which the party was rid-  
ing stopped suddenly in crossing the  
railroad track and before the occu-  
pants could escape the train bore  
down upon it. The motor car was  
shattered and Thomas, his wife and  
ten-year-old daughter were killed in-  
stantly. Mrs. Ray was hurled forty  
feet and died in a few minutes.

Strike Developments in Colorado.Tarrytown, N. Y., June 8.—To guard  
against molestation of John D. Rocke-  
feller and his son at Pocantico Hills,  
thought to be threatened through re-  
cent attempts at demonstration and  
discussion here in connection with the  
Colorado strike developments, sixteen  
deputies from the White Plains county  
jail were placed on the Rockefeller  
estate, after a conference between Mr.  
Rockefeller and Sheriff Doyle.These deputies will be paid by the  
count. The sheriff said that he re-  
garded the situation at Pocantico  
Hills as "acute."The trustees of the village are said  
to have been impressed with the pleas  
made before them in favor of free  
speech and will hold another meeting  
to hear representatives of the Free  
Speech league, a statement from the  
league announced.The Industrial Workers of the  
World prisoners at the White Plains  
jail probably will be released on pre-  
sentation of bail, it was said.

## \$100,000,000 IS AT STAKE

Estimates of Ore Under Lake Beds  
in Northern Minnesota.Chisholm, Minn., June 8.—Revised  
estimates of the amount of ore under  
the lake beds in Northern Minnesota,  
to which the state claims title in op-  
position to the rights of riparian own-  
ers, bring the total close to 400,000,000  
tons instead of the 40,000,000 es-  
timated four years ago, and the peo-  
ple of Minnesota thus stand to lose  
\$100,000,000 in a test suit which will  
be argued in the state supreme court  
June 30.The brief is being prepared by At-  
torney General Lyndon A. Smith and  
his assistant, C. Louis Weeks, who  
have spent more than a month on it.

## SUMMER STORMS INFLECT DAMAGE

Wind and Rain Storms Saturday and Sunday Night Create Considerable Havoc

### MANY TREES ARE BLOWN DOWN

Rumored that Pierz Had Thirty Houses Blown Down—Sewers Flooded in Brainerd

Summer storms Saturday and Sunday nights did considerable damage. Trees were uprooted in all parts of the country. On Saturday night a twister of a storm mowed down a path of trees from near Little Falls to Brainerd. It was rumored that Pierz, eight miles east of Little Falls, had been wiped off the map, but later this was happily proven untrue. The creamery picnic at Fort Ripley got a slight wetting.

Saturday's storm broke down awnings, smashed trees, etc., as far west as Staples. At Ray Wilson's place in Staples the storm whirled a man through his plate glass window, and he literally dropped in and stayed till the storm was over.

Brainerd sewers in the downtown district were full to overflowing and the section near Laurel and Sixth was a swimming sea. The electric light service was one to cause a moving picture operator to commit suicide or something worse. Art Johnson, of the Columbia, flashed a notice on the screen that he was going back to the coal oil circuit if things did not improve. Edwin Harris Bergh played the "Rosary" in the dark and lightning flashes enabled him to occasionally catch a glimpse of his audience. Half a reel was shown and then the light failed again. Another half was shown and the light went bump again. Ushers walked about with tallow candles seating the patrons.

Other theatres also suffered with the intermittent service. Out at the Al. G. Barnes wild animal circus the lions roared as the rain descended and the elephants' trunks filled with water.

### STATE FAIR BULLETIN

Thirty Students from State School of Agriculture Get Trip to the State Fair

Thirty students from the State School of Agriculture, Morris, will be given a trip to the Minnesota State Fair, Sept. 7-12, with all expenses paid except railroad fare, according to action taken by the fair board at its regular monthly meeting.

The students will be attached to the "Farm Boys' Camp." They will spend part of their time as ushers in the hippodrome and grandstand. E. C. Higbie, superintendent of the Morris school will be in charge of the party.

At the request of C. G. Selvig, superintendent of the State School of Agriculture, Crookston, the board agreed to offer free trips to the 1915 fair to the two boys exhibiting the best corn at the Northwestern Farm Crops Exposition next winter. The winner will receive all expenses paid, while the second prize will be one-half of all expenses.

The board voted to make an annual appropriation of \$100 to the Territorial Pioneers' Association to pay the expenses of putting up the art exhibit at Territorial Hall.

The board is contemplating the erection of a wireless telegraph station on the fair grounds, to be used in demonstrating to the public the receiving and sending of wireless messages. If erected it will be placed in the Liberal Arts Building. Final action will be taken at the next meeting of the board.

At the invitation of J. J. Furlong, President of the Fair Board, the next regular meeting of the board will be held at Austin, his home, Tuesday, July 7.

## COUNTERMANDS BLOCKADE ORDER

Special to Dispatch:

Mexico City, Mexico, June 8—The Huerta government today decided to countermand the order for the blockade of Tampico. This action is believed to have followed the receipt of word from Niagara Falls to the effect that the United States would not permit the blockade. The Huerta cabinet realized the futility of opposing American naval forces.

## MOVING PICTURES TAKEN OF CITY

Park Theatre Takes First Films of Circus Parade Early Monday Morning

### TO BE SHOWN AT THEATRE

Moving Pictures to be Taken of Chamber of Commerce, City Council and City Views

The circus parade and scenes of Brainerd as taken this morning by a moving picture operator is only part of the publicity work which the Park Theatre contemplates doing for Brainerd. Under the supervision of E. A. Adams, manager of the Park Theatre 600 feet of film was taken showing the entire Al. G. Barnes circus parade and the thousands who viewed the parade.

These pictures will be shown at the Park Theatre within a week or ten days. The pictures are made by Rath and Seivolt Co., St. Paul, official state photographers, who filmed the state fair and other scenes.

Other pictures to be taken are the membership of the newly organized Chamber of Commerce, the mayor and city council, all points of interest in and around Brainerd and especially the mining and agricultural development. All the films will be shown at the Park Theatre and in addition throughout six states, Minnesota, Iowa, Wisconsin, Michigan, Indiana and Illinois.

The Park Theatre is doing its share boosting for a bigger and better Brainerd and Crow Wing county.

## STAPLES DEFEATS BRAINERD SUNDAY

Young Ellis Pitches Air-tight Ball and Allows but One Solitary Hit in Game

### SIX RUNS MADE BY STAPLES

Brainerd Plays as Well as it Could in a Wet, Soggy Field in a Strong Wind

Knutte Ellis was the name, a pitcher gaunt of frame. He filled Brainerd's cup of woe, Staples blanked us 6 to 0. Brainerd, the gallant baseball nine which before the fatal Sunday of June 7 had a clear, unbroken, unblemished record of a string of straight victories, on Sunday collided with Staples at the division point and encountered a long, gaunt pitcher in the shape of one Ellis, who allowed but one measly scratch hit, and when the game was finished the score read Brainerd 0, Staples 6.

It was a heartrending day and occasion. The game was delayed because a funeral cortege wended its way past the ballground and it was not until after 4 o'clock that the game started and then later there was another intermission in the play for the mourners to return home.

The field was wet and soggy. The grandstand looked like Venice perched among the canals. Back of backstop was a sea of swamp water. The outer garden was wild and primitive and the heavy, dank grass would be a prize winner for a meadow grass exhibit at a state fair but would flunk if it was intended to be a model ball ground. Brainerd runners in chasing the ball had to keep an eye on the ground and one on the ball in the air and consequently several are suffering with an aggravated attack of strabismus this morning.

The umpire, named Bush, made several decisions which did not appeal to Brainerd fans. In the eighth inning one Sandy Johnson slid for third and hooked it around the bag and while fully half a foot from the bag was tagged by Tommy Templeton. Mr. Bush said, "Safe." This Bush personage is of Staples extraction.

Brainerd showed a flash of its old time form in the first inning. Loom was near third and Johnson at first. Victor caught Johnson off first and Cook chased him to second. Halfway down Cook suddenly halted and whipped the ball to Templeton at third who nailed Loom while he was looking at Johnson's struggles.

Staples' infield pulled off two double plays, one in the second and one in the fourth innings, the ball traveling from short to second to first. Staples heavy scoring came in the fourth and eighth innings. In the fourth Lee flew to Parker, but the latter muffed the ball. Johnson, alias Sandy, got a hit. Fox flew out to Bud Roderick. Schroeder, Staples' catcher, struck out. With two out, young Anderson, Staples youthful, long-legged first baseman, whaled the ball for a two-bagger and scored Lee and Sandy Johnson. Wheeler went out short to first.

In the eighth there was a comedy of errors. Blanchett reached first on an error of short. Loom amassed the initial base by an error of second. Lee struck out. Sandy Johnson grasped his club and nailed out a two-bagger and scored Blanchett and Loom. Fox got a hit, and so did Schroeder. Anderson whaled the ball to Brainerd's shortstop and as he bobbled the ball near second, Fox made second and Anderson first and Johnson home.

Davis umpired part of the game. Brainerd sent down a large delegation to see the game, some taking the noon train and by far the larger crowd the flyer. It is said there were but 397 paid admissions and of this fully two-thirds was a Brainerd crowd.

Brainerd plays Staples here next Sunday, June 14. With home grounds in decent shape, Brainerd can be expected to win and to win as well over Staples as the latter handed it to Brainerd on June 7. Of this Manager D. A. Peterson is satisfied.

Victor was on the mound for Brainerd and pitched air-tight ball until the fourth when an error, a single and a double netted two runs for Staples. From then until the eighth it was one, two, three out for Staples. In this inning, three errors, a double, and two singles added four more runs to the victor's total.

The Brainerd boys are fast rounding into shape and within a short time will be in line to give any team a hard fight to get the best of the score. The catching and pitching department is well taken care of and the rest of the team is fast rounding into form. The season is early and much practice and playing must be done before the team will reach its true speed. Staples had the advantage of more practice as its schedule has called for a good many week day games.

Sometimes nervous women's afflictions are imaginary; again they are a form of actual and terrible disease. At any event, every woman and girl should take a cleansing, purifying medicine like Hollister's Rocky Mountain Tea every week. Try this for a while. 35c. Tea or Tablets. H. P. Dunn.—Adv. mwf

### POOR LIGHT SERVICE

Intermittent Power Furnished Last Night—Power Shut off Three Hours in Business Section

Some of the poorest electric light and power service ever furnished Brainerd was handed to the city Saturday night, Sunday night and Monday morning. The power company says it had the power to furnish. The city, on the other hand, experienced trouble with poles and wires. Monday morning, while repairs or something was made, power was shut off three hours from the Dispatch presses and printers stood about waiting for something to do.

Sunday night the three moving picture shows tried to do business but a fluctuating service ruined their performances. The light was on and off with exasperating frequency.

## BARNES CIRCUS IN BRAINERD TODAY

Circus Parade Witnessed by Thousands—Performance in Afternoon Well Attended

### MOVING PICTURES OF PARADE

Taken by E. A. Adams of Park Theatre—The Evening Circus at 8 o'clock this Evening

The lure of the tinsel, sawdust rings, pink lemonade and white tops drew thousands to the Barnes circus this afternoon. After the parade at 10:30, which was witnessed by almost the city's entire population, there was a general begonia for the show grounds to see the "free act," a magnet provided to draw the people to the side shows, and they did a thriving business.

The big parade might be termed a "review of the jungles," as scores of big cages containing choice specimens of wild animals occupied prominent places in the pageant. Camels and elephants are harnessed to tabeleaux wagons. Zebras and sacred cattle, monkeys, and orang-outangs help to swell the array and make good the claims of the pictures on the billboards.

The horse fair feature of the Barnes parade instantly commends the show to all lovers of good horse-flesh. The show claims to exhibit some of the world's prize winning stock and judging from the appearance of those shown in the morning's parade, the claims are true, for more beautiful and better groomed horses and ponies were never seen here.

And the program—it's quite a revelation, and entirely different from those given by the usual circus. An absence of the human performer is quickly noticed. Trained animals give the whole show and it's a mighty interesting show, by the way. Almost every trick and acrobatic stunt known to sawdust ring animals is "pulled" by these animal-actors. Great groups of man-eating lions and tigers, provide the thrillers, dogs, goats, horses and ponies give a clever line of quiet dignified entertainment, while comedy elephants, ponies, monkeys, bears and mules provoke the laughter.

Another record-breaking crowd is expected tonight. Eight o'clock is the hour for their performance. The doors will be opened an hour earlier so patrons may inspect the large menagerie.

A feature of the morning parade not scheduled in other towns was the taking of moving pictures of the parade and the crowds by E. A. Adams, manager of the Park Theatre of Brainerd. The machine was placed near E. R. Smith's office on South Sixth and the camera pointed north on Sixth.

#### His Successor.

Shortly after the death of one of England's greatest poets a devoted admirer of his visited the little Westmorland village where the poet had lived and died to gaze reverently at his house, the little church and at some of his favorite haunts where some of his immortal poems were composed.

Seeing an old man (a native of the village), the stranger entered into conversation with him, remarking sadly on the death of the poet, to which the old man answered kindly and encouragingly:

"Aye, aye. Still I mak' no doot but t' wif's'll carry the bizness on."—London Mail.

#### The Coveted Hand.

The young man had gone to the heir's father—always a ticklish job—but he took his courage with an iron grip. "Sir," he blurted out, "I want to ask you for your daughter's hand."

The old man, not in the least disconcerted, said:

"Which hand? The one she signs checks with, I suppose."

### NOTES OF THE GAME

On the noon train to Staples rode the Brainerd baseball team and among the fans were Anton Swanson, George Pickler, Eugene Hoel, Miss Hildegard Anderson, Miss Mabel Shoffo, Fred Englund, Frank Gill, Eugene Erickson, Andy Wallace, Mr. and Mrs. P. E. McCabe, C. W. Mudd, Fremont Tureotte, Roy Waite, Fred Allison, J. A. Larson, Charles H. Pelkey and others.

The flyer brought down a still larger crowd. Returning at 7 in the evening, the flyer was crowded to the doors.

Harry Peterson, mellophone player and Ed Orleman, clarinetist, both of Staples who play in the Brainerd and Staples bands, were interested spectators and boosted indiscriminately for Brainerd and Staples.

Tim Tonhey was perched on a top seat of the little grandstand. The Staples grandstand is a weak looking affair and had it suffered a collapse Sunday would have precipitated everybody into a sea of mud.

Charles Gustafson, Jerry Glunt, Harry Treglawny, Mr. and Mrs. D. A. Peterson, Mr. and Mrs. James Templeton, John Pelkey, Ed Levant, Harry Levant, Miss Nora Hurley, Miss Margaret Brady, Miss Jean Brady, C. A. Russell, Walter Koop, Earl Koop, Art Boppel, Miss Fay Alden, Mrs. Joseph Flanagan and daughters, John A. Hoffbauer and others saw the game.

### Don't Lose Sleep Coughing at Night

Take Foley's Honey and Tar Compound. It glides down your throat and spreads a healing, soothing coating over the inflamed tickling surface. That's immediate relief. It loosens up the tightness in your chest, stops stuffy wheezy breathing, eases distressing, racking, tearing coughs. Children love it. Refuse any substitutes. Contains no opiates. H. P. ### Those Chilly Boston Girls.

The beautiful Boston girl was ailing, and a physician had been summoned. "Doctor," said the fond mother, "is it anything serious?"

"At present," replied the wise medical man, "I am not prepared to state. We must await developments. She has a high fever. Her temperature is thirty-five!"—New York Globe.

There is more CATARRH in this section of the country than all other diseases put together, and until the last few years was supposed to be incurable. For a great many years doctors pronounced remedies, and by constantly failing to cure with local treatment, pronounced it incurable. Science has proven catarrh to be a constitutional disease, and therefore requires constitutional treatment. Hall's Catarrh Cure, manufactured by F. J. Cheney & Co., Toledo, Ohio, is the only Constitutional cure on the market. It is taken internally in doses from 10 drops to a teaspoonful. It acts directly on the blood and mucous surfaces of the system. They offer one hundred dollars for any case it fails to cure. Send for circulars and testimonials. Address, F. J. ## SUBMARINE CRAFT

They Surpass All Warships In Concentrated Deadly Power.

A DIVE UNDER THE SURFACE.

The Terrifying Sensation and the Agony of Roaring Noises That Bewilder the Novice as the Vessel Goes Down Into the Depths of the Sea.

In waters where the United States maintains a naval station you may happen to see a tall staff cutting through the water as though borne by some unseen hand beneath the surface. On the top of the staff is a slight bent hood pointed in the direction of motion. This is the eye of a submarine.

From the lens in the front of the hood a picture of the whole seascape is carried down by a succession of mirrors in the hollow staff until it is thrown on a prismatic lens at the bottom. Here the navigator of the submarine watches a moving picture of what is going on above the surface of the water and guides his boat accordingly.

We said boat advisedly, because it is really a vessel for the transportation of human beings at sea. It is, moreover, more than a floating craft, swimming on the surface like a swan. It is also a diver, darting down into the depths like a fish.

Let yourself be shut up in it and dive with it and it seems more like a tightly corked bottle. Your first sensation as the boat starts downward is that you have foolishly allowed yourself to be shut up in a death trap from which there is no escape. Your heart sinks faster than the boat.

And then something happens to make you forget everything but that this craft is a hellish contrivance for destroying your hearing. As the submarine dips under the surface and all outlet for sound is cut off by the sealing waters the rush of the sea around the steel walls becomes the rattle of spring hall on a tin roof. You remember that old and painful swimming hole experiment when you held your head under water and let a playmate strike two stones together. But here the assault on your eardrums is as though a million stones were striking together. A pebble falling through the waters on the steel hull sets the inside clanging like a Chinese temple full of jangling gongs. You must shout to be heard.

Through the roar from the vibrations of the steel shell come the insistent crackling hum of electric motors, the rattling fire of gasoline engines, the whirl of machinery and the barking cough of exhausts. Your craft seems to be nothing but an elliptical mass of concentrated noise sinking through the sea. You fear that it will blow up from its own vibrations.

When you have in a measure controlled your protesting ears you look around and see a wonderful array of engines, machinery, deadly torpedoes lashed together in pairs and the steel tubes from which they are projected with compressed air all stowed away in the least possible space.

The double walls surrounding you are themselves huge ballast tanks, which can be filled with water through valves opening into the sea outside or can be emptied by the force of compressed air from within. As these tanks are filled the hull of the submarine sinks until only the periscope, the elevated eye of the vessel, shows above the water. When the water is forced out of them the boat becomes light and rises to the surface until its conning tower, superstructure and the upper part of the hull are exposed. Then the craft is navigated like any other boat.

When the vessel is submerged the navigator at the lower end of the periscope has a far more intricate task than the steering of an ordinary boat. The periscope, of course, brings him a limited view of the sea about. Then he must steer in two planes instead of one. His craft turns not only to the right or left, but also up or down. To enable the vessel to stay under the water a longer time than usual the submarine carries a reserve supply of air. This emergency supply is compressed in a steel flask under the enormous pressure of 2,000 pounds to the square inch. Should the flask burst

the explosion would wreck the boat. Perhaps a better idea of the tremendous concentration implied by this pressure may be gained from the statement that if this storage cylinder were punctured with a hole no bigger than a needle and if the tiny jet of escaping air were to strike a man it would pierce him through and through like a bullet and even drive a hole through an inch thick board behind him.

For ordinary purposes the air supply used under water is carried in ordinary cylinders at much smaller pressures. Unusual precautions have to be taken to prevent the contamination of the air supply by gases from the storage batteries and from the gasoline motors.

Concentration epitomizes the submarine. Its energies and utilities are packed in like the parts of a puzzle, and in the concentration of deadly power it surpasses any other weapon of man.—San Francisco Chronicle.

### MISS HINTON GOOD READER

Puts a Lot of Joy Into Her Performance and Is a Ready Favorite With Everybody—Mordelia Is a Rattling Fine Musician—Not Too Classical.

One of the very pleasing prelude numbers of the Chautauqua this season will be given by the Hinton-Mordelia Company. It is a happy combination of musical and literary genius fitted exactly to popular needs.

Mordelia is a clever musician and does wonders with his German concertina.

MISS HINTON

Miss Hinton as an interpreter is sparkling and original. Each is exceptional in talents, and together they form a team that supplies a real need in Chautauqua work.

While the programs are high grade, they are not too classical and are everywhere received with enthusiasm. The team work of this company is considered of the very finest quality.

Candidate for Representative from Crow Wing County

I respectfully solicit the support of voters of Crow Wing county at the primary election to be held June 16, 1914, and if nominated and elected, I pledge my best efforts to the honest and efficient service of the people of my county and state.

I advocate and if elected will support: Legislation for greater state aid for roads and bridges.

Legislation provision for development of state lands by the state.

Any legislation that will help compel proper business-like economy and increase the efficiency of administration of the state's business affairs.

I believe firmly in the rule of the people and if elected shall support every measure which may tend to increase the power of the people in state government and all measures which may tend to the betterment of conditions in rural communities.

Yours very truly,  
EDWARD R. SYVERSON,  
Ironton, Minn.

Political announcement by and for Erick Kronberg of Brainerd, Minn. Amount to be paid is \$10.90.

Candidate for Sheriff

I hereby announce myself as a candidate for sheriff of Crow Wing county and respectfully solicit the support of all voters at the primary election to be held June 16, 1914, and if nominated and elected I pledge my best efforts in serving the people of the county.

I have been a resident and taxpayer of this county for 34 years, previous to which I served five years in the U. S. regular army, as sergeant of Co. B, 15th infantry, where I received a military training that will, I believe, be a valuable aid in performing the duties of the office, which I feel confident I can perform efficiently and satisfactorily, if elected.

Respectfully,  
ERICK KRONBERG.

advocate of the common folk. His lecture abounds in common sense and makes a natural appeal to the heart and mind.

His great hobby is the conservation of human life. He is a safe counselor and a powerful advocate. Big and handsome, with a rich, powerful voice, it is a pleasure to hear him speak.

### Why He Drowned.

Describing the stringent police regulations of Berlin, a citizen of that city by way of illustration told the following story:

"Schmidt and Krauss met one morning in the park.

"Have you heard," says Schmidt, "the sad news about Muller?"

"No," says Krauss. "What is it?"

"Well, poor Muller went boating on the river yesterday. The boat capsized, and he was drowned. The water was ten feet deep."

"But couldn't he swim?"

"Swim? Don't you know that all persons are strictly forbidden by the police to swim in the river?"—Philadelphia Record.

### More Rush, Less Push.

The primal cause of American breakdown has been attributed by a famous physician to those absurd feelings of hurry and care, to that breathlessness and tension, that anxiety of feature and solicitude of results, revealing the lack of inner harmony and ease, without which good work cannot be accomplished. The man who gives us the impression of the old Scriptural motto, "In quietness and confidence shall be your strength," is none too common in these days.—Christian Herald.

### FLEETING TIME.

Make the most of the time allotted to you. Mark how fleeting and paltry is the estate of man—yesterday in embryo, tomorrow a mummy or ashes. So, for the hair's breadth of time assigned to thee, live rationally and part with life cheerfully, as drops the ripe olive, extolling the season that bore it and the tree that matured it.—Marcus Aurelius.

### A Mean Man.

Tommy—Pop, a man is a bachelor until he gets married, isn't he? Tommy's Pop—Yes, my son. Tommy—And what does he call himself afterward? Tommy's Pop—I'd hate to tell you, my son.—Philadelphia Record.

## We're Hammering Away At This Fact

PEERLESS is the best tobacco in the world for big, strong, manly men. It was put on the market purposely to please this kind of man. We first marketed it fifty years ago; it has been the favorite of men of vim and vigor ever since.

It is pure Southern Kentucky tobacco, carefully and naturally aged for three to five years so as to bring out all its mellow, natural richness and honest sweetness. It is a juicy, full-bodied tobacco that thoroughly satisfies a powerful man's tobacco-hunger.

## PEERLESS Long Cut Tobacco

Take the case of the blacksmith. When he wants tobacco satisfaction, he cannot get it out of "flat," insipid mixtures. He has got to have a man's size real old natural *he-tobacco*.

We have the greatest tobacco organization in the world and are in business to stay in business—by giving the best values. PEERLESS is only one of our many brands, but like all it is the "highest quality—biggest quantity" of its kind sold.

We tell the big, brawny men of this country that PEERLESS is the best tobacco for them on the market and they know they can bank on that statement.

A week's trial of PEERLESS will prove it. "Smoke it or chew it—but go straight to it."

Sold everywhere in 5-cent packages.
